

HSVPOA Record Inspection Obstacle Course

Description

by Gene Garner, July 23, 2019

Records Inspection Requests

It appears the [POA](#) is setting up an obstacle course to make the inspection process as cumbersome and difficult as possible.

The HSVPOA REQUEST TO SCHEDULE RECORDS INSPECTION form:

- **Item number one (1) notes** – inspection will be available to members who have been verified as POA members with a ‘proper purpose’ may be allowed access.
- **Also, item number three (3)** – “Requests to review the CEOs contract will be evaluated for improper purposes by the HR Department”.
- **Item number five (5)** – Appointments “will be scheduled for those requests not deemed improper.”
- **Item number seven (7)** – “Requests that appear to be improper will be submitted to the BOD for a decision to deny the request”. Examples include “suspected malicious uses”.

Didn’t Judge Herzfeld already decide this issue?

Who decides what a proper purpose is or what a suspected malicious use is? I thought the judge had already decided that. From page nine (9) of Judge Herzfeld’s decision:

“The reasons stated by COOPER are not only proper, they are among the most proper reasons possible: examining the expenditures of the corporation of which they are a member and communication with their fellow members.

“

Judge Robert Herzfeld

I think that says it all. Under “The purpose of my request is: “put” **HOW THE POA IS SPENDING MY MONEY.**

HSVPOA record inspection unlocked?
