

HSVPOA Water Services

Description

Just say no!

Editor's note: The issue of "Wholesale Water Agreement – North Garland County Regional Water District" is slated to be part of the Board Discussion Session scheduled today, November 4, 2020, at 2:00 p.m. Click [here](#) to go to the Official POA YouTube channel. In the email below, Property Owner, Tom Blakeman, addressed Board Members and the General Manager:

* * *

Dear Board & GM,

Item 6. on the discussion topic list (see below) is regarding a "Wholesale Water Agreement."

I want to take this opportunity to remind all of you that selling POA / Village water and sewer services to the outside world is against the prohibitions clearly laid out in the Declaration. Prior boards have attempted such action, and most recently was one of the items (sewer service selling) voted down by the Property Owners in the so-called [Declaration Vote](#) a year or two ago.

It is apparent that the current proposal is ostensibly for a back-up water supply for the Village. Emphasis on the word "ostensibly." The fact is that once a connection line is established, it will be a simple matter to then push water out of the Village as well as take it in during some or any "emergency." Again this would be a violation of the Declaration.

It is recognized that the Village already had created an “emergency” connection with the Peron community some years ago. No doubt, this was/is also a violation of the Declaration. It is incumbent upon the Board and Management to cease and desist these attempts to circumvent the Declaration and the Property Owners’ will. We did not elect you (or hire you) to do such things. You should be managing what facilities and resources we have, utilizing your time and effort to such ends, and NOT pursuing things that are a bad idea and a violation of our Declaration.

Item 1. on the discussion topic list is the Proposed Budget. Part of that budget is the fee schedule, which includes the topic of water and sewer service fees. The proposed fee schedule and budget are set to impose yet another 3.0% increase in water/sewer rates. The weak justification for this move is a reference to some study supposedly done four years ago by previous and, as we all know, totally discredited, prior Administration and Boards. Water and sewer rates have continuously been going up every year since, in an attempt to obtain POA cash flow revenues from the resident Property Owners, which has not been obtainable through assessment increases or other means. This practice needs to stop. As with the selling of water outside, the Property Owners did not elect (or hire) you to nickel and dime us to death with fees. This 3.0% increase in the budget needs to be canceled and removed. You need to find some other way to increase POA revenues and reduce overhead and fixed costs. The water fee item in the Budget in question does none of these. Fix it.

Thank you for your attention to these matters.
