Last week I was asked to participate in a video that was produced by the Benton Area Chamber of Commerce. [see video below] One of the purposes of the video was to let the public know all the opportunities that the county has made available for the public to safely conduct business by phone, email, and online during the pandemic.

This is one of several videos that the Chamber is planning to produce highlighting different organizations and local businesses in Saline County and what they are doing to keep their customers and their employees safe all while providing necessary services to the public. I would like to thank Executive Director Gary James and his team for including me in the video and for everything they are doing for Saline County businesses.

Stay Safe, and remember no more than 10, stay 6 feet apart, wear a mask and wash your hands!
