Yes %	98.31%
No %	1.69%

That's right. Only 17 villagers, that responded to the survey believe the POA Administration doesn't need to do more to protect our AMENITIES. That means 98.31% want to see some change. We believe POA Administration needs to get the BOD to pass rules that will allow them to give the police department the authorization to secure our gates and make sure unauthorized non-property owners are prosecuted to the full extend of the law for trespassing on private property.

QUESTION 2: Do you believe the POA should require every non-property owner entering the gates, with a boat, be required to pay a \$10.00 per day lake use fee before being allowed to enter the HSA gates for the number of days they are going to be in the village.

No %	4.47%

The Villagers understand why this needs to happen. They want invited non-property owners entering the village to pay at our gates. We believe, if required, the POA Administration, needs to ask the BOD to change whatever rules or policies are required to implement this immediately.

QUESTION 3: Would you like to see the POA charge and require every property owner to purchase and display a village decal for their autos? These fees could only be used for road upkeep and hire additional police personnel in order to secure our card and manned gates.

We understand it takes money to provide security. We need policies which allow our police department to act judiciously to keep unauthorized non-property owners out of the village. We believe the first step is to require that every village automobile must be required to display our current auto decal. If the POA Administration, can require all boat owners in the village to display a boat sticker on every floatable object, surely, we can require everyone to display their auto sticker. Our police need to have the authority to patrol and enforce the rules utilizing the AMENITIES of the Village.

.....

QUESTION 4: Would you like to see the creation of a patrol, that has the authority to cite violators in the parking lots, loading ramps and beaches and issue citations as an additional deterrent and revenue source.

No %	9.15%

Based on the overall response of the Villagers to all the questions, they really want the POA Administration to protect our AMENITIES and village from unauthorized people. We believe the property owners have voiced their opinion, now it is up to the POA Administration and BOD's to act together to secure our gates and protect our AMENITIES. NO GATES IS NOT AN OPTION.

YOUR THOUGHTS AND FEEDBACK IS WELCOME.
